Titulación ADE Y ECONOMÍA	
Profesor responsable Esteban Fernández Vázquez	
Nombre asignatura STATISTICAL DATA ANALYSIS	
Tipo de Asignatura OPTATIVA	Temporalidad 2º SEMESTRE
Código SIES GECONO01-4-002 (ECONOMIA) GADEMP01-4-028 (ADE)	Curso 4º

Cambios introducidos en los contenidos

The program and the contents of the lessons have not been modified.

Cambios introducidos en las metodologías y plan de trabajo

After the classes have been officially cancelled, all the face-to-face activities are now transformed into online tasks (excepting the time reserved for the final exam). The students have online resources to help them following the course. For the theoretical contents they have available video presentations and their slides on the Virtual Campus (plus some additional material if required). Regarding the problems, they have available documents with detailed solutions of the list of problems that would be solved on regular face-to-face classes. The professor hold weekly sessions on MS Teams, on which students can clarify their doubts upon request.

* Los cambios introducidos no deben alterar las competencias ni los resultados de aprendizaje esperados

Cambios introducidos en la evaluación

In all the calls of this course the final grade will be given by the most advantageous situation to the student:

- a weighted mean of the scores in the two tests corresponding to the continuous assessment (20%) and the score in the final exam (80%).
- only the score in the final exam.

No more continuous assessment activities will be implemented this semester. The final exam will be an online exam that will take place on May 27th at 9:00.

Cambios introducidos en las tutorías

Online tutorials -by groups and one-to-one- will be held through the MS Teams platform. Specific doubts can be solved by email as well.
